

International Symposium on Analysis, Computing and Optimization (ISACO2011)

分析、計算與優化國際研討會

This symposium brings together leading experts in areas of nonlinear analysis, harmonic analysis, scientific computing, and optimization to present their latest work so that participants and students understand the latest progresses, theory and methods in these areas. It also provides a forum of opportunities for discussions and collaborations of researchers from various disciplines on research frontiers.

Date: March 10, 2011

Time: 08:40~17:35

Venue: Room 4011, Science Building, Department of Applied Mathematics, NSYSU

Speakers:

1. Professor Bian, Baojun (Tongji University, Shanghai)
2. Professor Cheng, Jiecheng (Zhejiang University, Hangzhou)
3. Professor Ding, Yong (Beijing Normal University, Beijing)
4. Professor Li, Chong (Zhejiang University, Hangzhou)
5. Dr. Naraghirad, Eskandan (Yasouj University, Yasouj, Iran)
6. Professor Peng, Lihui (Zhejiang University of Commerce, Hangzhou)
7. Dr. Su, Yu-Ru (University of California at Davis, Davis)
8. Professor Takahashi, Wataru (Tokyo Institute of Technology, Tokyo)
9. Professor Zheng, Xiyin (Yunnan University, Kunming)

Organizers: Professor Xu Hong-Kum and Professor Wong Ngai-Ching

Department of Applied Mathematics, National Sun Yat-sen University

Research Center of Nonlinear Analysis and Discrete Mathematics

國立中山大學應用數學系、及非線性分析及離散數學研究中心
